Virtual Arts-Integrated Residencies

- Each virtual residency can accommodate multiple classrooms simultaneously reaching hundreds of students per day

- Virtual residencies eliminate travel expenses and reach more students for much less cost than in-person residencies

- Our virtual residencies have been conducted in over 1,200 classrooms with 30k+ students reached

- This is unlike typical virtual teaching. Students are collaborating, creating, and making learning a work of art

- These residencies are standards-based and connect to various areas of the curriculum

Residency Topics Include:
- Creative Movement & Science
- Body Percussion & Team Building
- Shadow Puppetry & Story Elements
- Performance Poetry & Comprehension
- Drawing Comics & Cause and Effect
- Abstract Portraits & SEL
- Drama & Literature
- Origami & Math
- Paper Sculpture & History
- World Music & Cultures

Ideal for:
- Academically, Socially, and Cognitively Diverse Learners
- English Language Learners
- Kinesthetic Learners
- Visual Learners
- Auditory Learners

"I like how we made really creative things that I never thought I could do. It helped me find my creative spot. I would like to find another talent that I didn't know I had." 6th Grade Student Arts Impact Middle School

"Many of my students that struggle in other areas of academics were able to shine." 5th Grade Teacher, Kirk Elementary

"Students were highly engaged, active participants, and motivated to build. This is a much more creative way to integrate art into history than I would have ever thought of." Principal, Powers-Ginsberg Elementary

"The residency encouraged students to participate in an art form that they regularly do not have access to. It was a unique experience that connected with the students and also had them improvise and problem-solve where applicable." 4th Grade Teacher, Malloch Elementary
